WAVERLY LABS NAMED AS CES 2019 INNOVATION AWARDS HONOREE

Brooklyn, NY, November 8, 2018 – Waverly Labs Inc. today announced that it has been named a [CES® 2019 Innovation Awards Honoree](#) for Pilot Translating Earpiece. The announcement was made during CES Unveiled New York, an invite-only tech event bringing together top media, exhibitors and industry leaders for a sneak peek of the products and trends expected at [CES 2019](#), which will run January 8-11, 2019 in Las Vegas, NV.

An annual program that celebrates outstanding design, the CES Innovation Awards recognizes honorees across 28 product categories. A panel of judges, including designers, engineers and members of the tech media, reviews submissions based on design, functionality, consumer appeal, engineering and how the products compare with competition.

Pilot Translating Earpiece uses the latest technologies in speech recognition, machine translation and wearable technology to allow users to converse without language barriers using Pilot's mobile app, which toggles between languages. Pilot can also be used to listen to music, and make and receive calls.

"Pilot was designed to bridge the gap for those suffering with translation barriers in their everyday life. We're incredibly thrilled to be included with a roster of innovative teams working on award winning technologies." – Andrew Ochoa, CEO

The CES Innovation Awards are sponsored by the [Consumer Technology Association \(CTA\)™](#), owner and producer of CES, the world's largest and most influential technology event. CTA has been recognizing achievements in product design and engineering since 1976.

Waverly Labs' Pilot Translating Earpiece will be on display in the [Innovation Awards Showcase](#) at the upcoming CES 2019. The complete list of CES 2019 Innovation Honorees, including product descriptions and photos, can be found at [CES.tech/Innovation](#).

CES 2019 will showcase life-changing technology across every major industry, featuring 4,500 exhibitors across 2.75 million net square feet (260K net square meters) of exhibit space. CES provides access to the very latest transformative tech, such as 5G connectivity, artificial intelligence, augmented and virtual reality, smart home, smart cities, sports tech, machine learning and more.

[Registration](#) for CES 2019 is open. For the latest news and show announcements, visit [CES.tech](#).

About Waverly Labs:

Waverly Labs is an innovative consumer electronics company created in 2014. Waverly Labs is developing a smart earpiece at the convergence of wearable technology and speech translation called Pilot.

About CES:

CES® is the world's gathering place for all who thrive on the business of consumer technologies. It has served as the proving ground for innovators and breakthrough technologies for 50 years-the global stage where next-generation innovations are introduced to the marketplace. As the largest hands-on event of its kind, CES features all aspects of the industry. Owned and produced by the Consumer Technology Association (CTA)™, it attracts the world's business leaders and pioneering thinkers. Check out [CES video highlights](#). Follow CES online at [CES.tech](#) and on [social](#).

About Consumer Technology Association:

Consumer Technology Association (CTA)™ is the trade association representing the \$377 billion U.S. consumer technology industry, which supports more than 15 million U.S. jobs. More than 2,200 companies – 80 percent are small businesses and startups; others are among the world's best-known brands – enjoy the benefits of CTA membership including policy advocacy, market research, technical education, industry promotion, standards development and the fostering of business and strategic relationships. CTA also owns and produces CES® – the world's gathering place for all who thrive on the business of consumer technologies. Profits from CES are reinvested into CTA's industry services.
